Election

Council Posts Hotly Contested

Although there was neither soap-box oratory nor public mass meeting in Daly City this week, strong undercurrents of political struggle made themselves felt here as election time neared.

Next Tuesday, April 9, local voters will go to the polls to select two councilmen, a city treasurer and a city clerk.

All was quiet on the political front where the office of treasurer and the clerk were concerned. Mrs. Florence Stockton, who has held the post of treasurer for the past three years, and Berton C. Ross, city clerk for the past seventeen years, will both go unopposed to the polls.

In marked contrast, heated political feelings and underlying issues at stake made the struggle for council posts a tense one. Two opposing factions each hope to gain the ascendancy in the city council for the next four years.

Representing one side are Councilmen Edmund T. Cavagnaro and

COUNTY NEWS IN REVIEW

Rainfall Record—

Breaking rainfall records for many years, county precipitation last week over the county hit the high point of two and a half inches in twenty-four hours.

Recent rains brought the seasonal total to approximately 23 inches compared to less than ten inches to date last year.

Beautify Skyline—

Preliminary plans for beautifying the 78-mile length of Skyline boulevard between San Francisco and Santa Cruz—a project originally proposed by the Burlingame Chamber of Commerce—were presented last week to the State Planning Board by the Skyline Citizens' Advisory Committee officials.

If the plan is favorably accepted by the State board, the surveys made by the four counties that the highway passes through will be co-ordinated.

Charges Dismissed—

Gambling charges against eight Chinese, arrested in a raid on the Oriental "club" near Bayshore City last December, have been dismissed, last week, by Justice of the Peace W. H. Clay because of insufficient evidence.

Motion of the defense attorney for dismissal was not opposed by the deputy district attorney.

ENCOUNTER DELAY

Decennial Census to Move U. S. Population Center

So. End

Street Work Hits Temporary Snag

Delaying their drive until yesterday lest it be regarded an April Fool joke, an army of U. S. census takers began their decennial "nose count" to determine sociological and economical trends of the nation. Upper left is W. A. Cogshall, head of the astronomy department at Indiana university, who will designate the new center of American population when census figures are complete. Map shows how this point has moved westward since 1790. Upper right: A typical census taking scene.

Accordion Duo In Amateur Finals

The accordion duo, that sounded so much like professionals on Benjie Walker's amateur finals broadcast on KGO Monday night, were not a couple of big-timers making a guest appearance, but Daly City's own Vernazza twins, James and Joe.

After the magnificent performance of the Twins, it is expected that there will be a veritable flood of postcards to the Homestead Amateur Hour, care of Station KGO, votes for James and Joe to appear for a week's paid engagement at the Golden Gate theatre. Particularly from their hometown friends, the votes are expected to reach larger proportions.

Others of Lembi's Indians who are gaining in popularity on the air are Al Marucci and his sister Lorraine, who appeared on KRE, last Sunday.

"Americanism" Finals Conducted

An impassioned plea for the principles of American democracy was presented by six young student speakers at Jefferson Union high school, Thursday, in the local finals of the California Bankers' association "Americanism" contest.

Charlotte Weait, Jefferson senior, won first place, speaking on the topic, "Keeping Faith with America." Miss Weait will participate in the county contest which will be held in April.

County winners will meet in the state contest held in San Francisco. The state winner will be awarded a trip to Honolulu.

Charles Yonan, student-body president, won second place, as alternative, speaking on the same topic.

Evan Gillespie was awarded third place for his discussion of "Youth in a Democracy."

Other speakers were Robert

Census Uncle Sam Asks The Questions

Are you single, married or divorced? Looking for a job or employed? Where did you live April 1, 1935? Do you own a radio? What is your average monthly electricity bill?

What fuel do you use for cooking? What was your income last year? How many hours did you work the week of March 24-30? Is there a mortgage on your home?

Uncle Sam is asking the questions and 130 million people must answer.

Participating in the greatest "Information Please" drive ever launched in this nation's history, ninety-one census enumerators yesterday began a concentrated two-week job of gathering population figures in San Mateo county.

The population census was to be completed for San Mateo county within two weeks and it was expected figures on the county's population would be released

After-School Program Nears Completion

Arrangements for the huge entertainment planned by the Doposcuola Italiano "Vincenzo Gioberti" will be completed this week, according to Gene Graziani, president of the group which sponsors the after-school.

The date is set for April 13, at Jefferson Union high school auditorium. The program will include Dante P. Lembi's Indians of Rhythm, other outstanding local entertainers and many Bay area radio personalities.

The complete program will be announced next week, Graziani said.

"Sadie Hawkins Nite" At Jefferson High

Jefferson Union high school girls will take over Friday night at Jefferson's "Sadie Hawkins Nite" Leap Year dance.

For once during the year the boys will get a break, because after dating an escort for the evening, the girl has to buy a ticket for him.

Names of all boys are on the "Scratch List" and as the girls invite them, their names are scratched, thus eliminating the possibility of two girls inviting the same boy.

Charles Yonan, student body president, announces that Lembi's "Indians" will play for the dance. Host and hostesses will be provided to take care of Jefferson's bashful students.

Add New Books To Library Shelves

Thirty-four new books have recently been added to the shelves of the Daly City library, Mrs. Jean O'Rourke, librarian, announced today.

The volumes selected from best-seller lists throughout the nation, publishers' recommendations and current popular demand.

Ranging from light fiction to discussion of affairs in Europe, the selections include such titles as "Miss Susie Slagle's," "Escape," "Inside Europe," and other best-sellers. Complete lists follow:

Daly City's South End streets lie quiet and deserted today with only a skeleton crew of 23 WPA workers left on the quarter-million-dollar street improvement job.

Orders to suspend the work temporarily were issued Saturday morning in a surprise move from local WPA offices. More than 150 men had been employed on the project.

F. M. Holley, director of operations for WPA, said work would be curtailed until the sponsor, the Daly City council, completes contracts for additional materials.

Events have moved with startling swiftness during the last week. Friday morning, Daly City won its fight for the right to open bids for materials and equipment rental.

With the withdrawal of two protesting property owners from an injunction suit designed to block the project and City Attorney R. A. Rapsey questioning the court's jurisdiction, the action was dismissed in Superior Judge Frank Deasy's court, San Francisco, Friday morning.

As a result, the Daly City council held an adjourned meeting at noon and opened bids of Hanrahan Connolly and company and J. B. Williams but delayed awarding the contract until Friday evening.

Friday evening, the council awarded the contract to Hanrahan Connolly company at a figure of \$89,925. Williams' bid of \$74,282.49 was rejected by the council after Williams had refused to cancel a stipulation it contained providing that "the contractor shall not be obligated because of any circumstances beyond his control, including strikes or other labor trouble of his own or of his suppliers."

Meantime word was received from the local WPA offices on Saturday morning that the job was to be temporarily suspended. Delay in the arrival of building materials was blamed by city officials for the temporary suspension of the project.

"This delay is perfectly normal, as I see it," City Attorney Rapsey said today. "The WPA is dependent upon the sponsor for supplies and it will be necessary to wait until contracts are completed for the additional materials to be supplied."

It is expected that Hanrahan Connolly company may bring a special action in Superior Court

This represents an increase of 23 passengers per day or 2200 more fares collected in March than in February.

Daily averages for the past four months are as follows: December, 383; January, 548; February, 551 and March, 571.

BUICK SPREADS SALES STORY

Buick is now spreading its sales story in one of the most comprehensive advertising campaigns ever scheduled at this period and second only to the new model announcement campaign last fall, A. H. Belfie, director of merchandising, reported last week to more than 2,800 Buick dealers who are inaugurating this manufacturer's spring sales activity.

Following an organization session in Flint, attended by regional and zone managers and their assistants from throughout the country, dealer meetings were held during the week in New York, Detroit, Chicago, San Francisco and 26 other key cities, at which plans for spring operations were outlined.

"The advertising program will be expanded in proportion to Buick's increased retail volume

which currently is exceeding all previous records at this season," Belfie said. "It will back up intensive sales activity on the part of dealers, expected to move Buick into a new high ground and establish a new par for retail volume of this make.

"A feature of the campaign, which will include the extensive and balanced use of virtually all types of media, will be three full color rotogravure advertisements to appear in newspapers with approximately 5,000,000 circulation. Two of these will deal with the new convertible models currently being introduced while the third features the luxurious Roadmaster series.

"This is undoubtedly the most extensive and effective advertising coverage ever set up by Buick at this season."

Morgan Firm Becomes Trust Company

J. P. Morgan and Company for many years America's largest private banking house, became a public corporation Monday under a New York state charter. Major figures in the organization, shown left to right, are Thomas W. Lamont, George Whitney and J. P. Morgan. All became directors of the new institution, being headed by Morgan. The firm has a capital of \$20,000,000, and a paid-in surplus of the same size. At the end of last year, Morgan assets were placed at \$671,578,699.

Longest Army Gun Range

In the American army the 16-inch gun has the longest range, approximately 30 miles. The Paris guns used in the bombardment of the city of Paris during the World war had a possible maximum range of 79.5 miles, the longest range of any gun known.

WE'RE talking here to those thousands who have not yet achieved a lifetime ambition. That is to say, they don't yet own a Buick.

We want to point out a few facts about the Buick SPECIAL pictured here—show how it swings wide the door on a golden opportunity.

Step into this sleek sweetheart. Your treadle foot touches off a trigger-quick Dynaflex straight-eight engine that's just about the smoothest thing that runs, thanks to micro-poised-balancing after assembly.

Swing through the gear changes and you find the same easy, finger-flick shifting as in the most costly Buick. And the same recoil-mounted Knee-Action soaking up bumps before they reach your hand on the steering wheel.

Take a rough road in stride. You'll find that

stout BuiCoil Springs muffle out the bumps—and they'll never need lubrication.

Look out through the easy-vision Safety Plate Glass in every window. Check up on the equipment: Two-Way Direction Signal with automatic cut-off, built-in automatic choke, high-capacity water pump—they're all there.

Here's the smart style, the blithe performance and the solid, substantial Buick quality that make this the car you've been looking forward to.

And, when you count in the included equipment, the

SPECIAL costs no more than some sixes with lower advertised prices.

"Open Door" To All Candidates

The Daly City Record has offered each candidate for municipal office six free inches of space each week to tell his qualifications to the public. Below is the copy submitted this week.

Cavagnaro and Fahey

The Daly City Municipal Election Campaign is now almost concluded, next Tuesday, April 9, 1940, being election day.

During this campaign we have conducted a constructive, clean campaign. We have not directed our attention toward nor have we made any attack against, opposing candidates. We seek re-election to your City Council on our past records as your representatives.

During our incumbency as city councilmen we have at all times tried to carry out the wishes of the people, to give the city an efficient and economical government.

We have at all times opposed what we believed unnecessary waste of the taxpayers' money, and where it was necessary we have had our objections incorporated in the minutes of the meetings. These records are in the custody of the City Clerk of Daly City. They are public records, open to the citizenry. We invite your examination of these official records as proof of our sincerity as office holders and as worthy representatives on your City Council.

Space will not here permit us to set forth our complete record, however we wish to take this opportunity to set forth a few excerpts.

Despite considerable opposition and objection we were successful in having the last bond election placed before the voters in such manner that the voters were given the opportunity of voting on each project separately, rather than having to vote either for or against all projects together. Our judgment in this matter proved we had taken the right step, as at least two of the projects carried—the new City Hall and the extension of the Fire Alarm System. Had all projects been placed in one, the result would have been a defeat for all.

We made the negotiations for the acquisition of the Brunswick Street Park property for \$6,000, after other sites not as good had been submitted by other people for much higher prices. While this project is not yet completed, we intend, after placing the matter under competent supervision, to have the same completed within the near future.

We have also directed our best efforts toward the completion of the Vista Grande Park. We have made every effort to have the baseball field on this project completed, but in spite of our objection considerable money has been spent, not only on the playing field but in planting flowers and plants along the sloping banks. We consider this wasted money for the reason that these plants and flowers, after each rain, have washed down onto the playing field.

We proposed the widening of Hillcrest Drive, co-operating with the merchants in that section for better parking and traffic facilities.

We recently opposed successfully the rezoning of Junipero Serra Boulevard to light industry. This would have allowed a rock and gravel bunker to operate in the western section of the City. The people of this section had had previous experience with this kind of business, and we felt that we owed it to them to oppose the re-establishment of such nuisance.

We welcome and invite your inspection of our complete record as your City Councilmen and trust that on Tuesday, April 9, 1940, you will express your approval of our administration of your affairs.

DALY CITY DIGGIN'S

"It's All In Fun"

By Bob Keely

Our faith in fellow men is just about gone. It will take us fully another year to recover it, and then—April Fool's day pops up again.

We started gaily about our work Monday, it being a lovely day, and everything went along fine until someone told us our house was on fire. We rushed madly homeward, and upon seeing the old homestead safe and sound, realized that it was the day for skull-duggery of that sort.

Fully prepared to meet any and all future alleged jokes, we ventured forth once more. Sauntering nonchalantly into the office, we tripped over a cute little rope wantonly strung across the threshold, sat down on a few harmless tacks, picked up our fountain pen, which was nicely smeared with printer's ink, and finished the episode by wiping on a towel saturated with itching powder.

Shrugging these little pranks off, we reached in our pocket for a cigarette, getting instead, an over-ripe tomato which happily soaked into our pocket, cigarettes and all.

But enough of April Fool's day. On to more important things.

Height of Chimneys

Height plays a considerable part in the efficiency of a chimney, many authorities maintain. For this reason, chimney heights of 30 to 35 feet as a minimum are recommended. Any arbitrary minimums must be considered in the light of local conditions, however, as overhanging trees, the height of the chimney above the roof, and strong prevalent winds can cause disturbance in the draft action.

A mammoth aluminum arch 325 feet high and with a span of 756 feet will be the theme center of the Rome 1942 Universal exposition. It will be the biggest construction project ever attempted completely in light metal and will be built of aluminum made in Italy. The arch will be built with steps and fair visitors who enjoy climbing will be able to scale the highest point of the arch for a panoramic view of the Rome fair.

Washington's Farewell Address

Washington's "Farewell Address" was written primarily to eliminate himself as a candidate for a third term. It was never read by the President in public, but printed in Claypoole's American Daily Advertiser, Philadelphia, September 19, 1796. The address is in two parts. In the first Washington definitely declines a third term, gives reasons, and acknowledges a debt of gratitude for the honors conferred upon him and for the confident support of the people. In the second, more important part, he presents, as a result of his experience and as a last legacy of advice, thoughts upon the government.

"No Ugly Women" Is Amazing Verdict Of Glamorous Star

"There are NO ugly women!" is the encouraging news from Constance Bennett, glamorous Hollywood actress, whose specially-prepared cosmetics will soon be available to feminine patrons of the Daly City theatre.

"But there are women," continues Miss Bennett, "who fail to make the most of what they have. The right beauty aids are as important as the right clothes."

Knowing that there are no finer beauty aids on the market than the cosmetics used by Miss Bennett, herself, The Daly City theatre is sponsoring ten Constance Bennett matched cosmetic nights, beginning April 8. Each Monday night, every woman attending the Daly City theatre will be given one of these items absolutely free.

Created for Miss Bennett's personal use by an expert chemist, these cosmetics have been widely used by other stars of stage and screen and featured in exclusive New York and Hollywood shops.

"I know you will like my special cosmetics," Miss Bennett concludes, "They all help to give the flattering results that every woman wants."

On the screen next Monday night, Preston Foster and Ellen Drew will play the leads in "Geronimo," and Pat O'Brien and Edward Arnold in "Slightly Honorable."

"This is common procedure," Rapsey said, "and may delay the job for a month or six weeks." Ultimate delay, even if the matter went to the Supreme Court, would not exceed more than 90 days, he estimated.

Troop 141 Scouts Take To Gardening

When you see a group of boys using shovels, hoes, rakes, and trowels on an empty lot on Los Banos avenue, it will not be that their respective parents have sent them out to clean up the yard, but Scouts of Troop No. 141 working for another merit badge.

To win their gardening badges, scouts have to learn to cultivate a twenty-five foot by twenty-five foot plot and to raise vegetables valued at five dollars on that plot during the season.

Paul Underhill, Bill Reardon and Richard Russell have started working for their gardening awards and other scouts will start soon.

The lot for the garden, along with water for irrigation, was donated by Mr. and Mrs. Carl Bentez, 13 Los Banos avenue, who have a keen interest in scouting activities.

Member of the WPA Recreation department radio group heard their own voices, Thursday evening, many of them for the first time.

So that the radio players could hear their own voices, arrangements were made by Bruce H. Boynton, department head, with the Millstone Studios, San Francisco, for a portable recording outfit to be sent to class.

Dramatic passages read were chosen by Miss Marie Burton, radio instructor. According to Irving Millstone, who recorded the voices, Daly City's amateur group is far ahead of most of the classes with which he has worked.

"Hearing and analyzing one's own voice," says Miss Burton, "is by far the most effective method of correcting deficiencies in diction, timing and inflection."

The records were played back to the class immediately after being recorded.

CENSUS

(Continued from Page 1)

from the Santa Cruz office in about 30 days.

District Census Supervisor H. C. Sutherland today reiterated what he has already emphasized, that the census data is confidential and used for statistics ONLY!

Classes for the numerators were held during the past week at the parish hall at St. Matthew's Episcopal church in San Mateo. Information from Sutherland's office at Santa Cruz, said 150 persons attended the classes and took examinations before the 91 were selected.

Included among the county's census takers will be Joseph Straughan, 25 Los Banos avenue, Daly City. All 91 enumerators for San Mateo county have been taken from within the county.

None of the enumerators will be allowed to gather information in neighborhoods adjacent to their own homes or with which they are well acquainted. As an example, an enumerator living in San Carlos may be assigned to San Bruno territory and one living in San Mateo may be assigned to South San Francisco, thus eliminating possibility that residents will be asked census questions by personal friends.

When residents are absent at time the enumerator makes the routine call, Sutherland's office said, a card will be left at the door. This card provides for special appointment and should be mailed immediately to address on the card in order that enumerators may make special calls and complete required information as soon as possible.

It was also pointed out that persons objecting to manner in which questions are asked or to the persons asking the questions will not be pressed for the information. Instead, the information said, an alternate enumerator will be sent to the protesting home.

Following completion of the population census, work is to start on the agricultural census. The business census of the county has already been completed and information brought out in that census was to be made available within a few weeks.

The law provides for penalties for any one over 18 who refuses to answer an enumerator's queries or willfully gives false information.

The law also seals the census taker's lips. For divulging any information he learns on this three-week canvas of population, housing, agriculture and drainage, he can be jailed, heavily fined or both.

March may come in like a lion and go out like a lamb—or vice versa, but with the Studebaker Climatizer it makes little difference, says this young lady. This unusual photograph was taken at the winter quarters of Terrell Jacobs, world-famed animal trainer, who has accomplished the unusual feat of establishing friendship between a full-grown lion and a lamb. Even in the briskest March winds, Studebaker Champion passengers are equally comfortable in both front and rear compartments.

1940 FAIR

Seven important events in the current history of the 1940 Golden Gate International exposition were recorded during the past week, presaging the success of the second season of California's world's fair on Treasure Island.

They were:

1. Signing of a contract by General Motors for an entire building of 42,000 square feet, with assurances of an exhibit that will be second to none in general interest.

2. Signing of a contract by Southern Pacific for a second season on Treasure Island with a reservation of 5142 square feet of space in the Vacationland building and the promise of an exhibit that will surpass that of last year.

3. Receipt of a cablegram by Major O. J. Keatinge, director of foreign participation, that the South American republic of Colombia will again be a Golden Gate International exposition participant. To Colombia goes the distinction of being the third Latin-American nation to sign for the 1940 season. El Salvador and Peru already have signed.

4. Billy Rose, famed throughout the world as producer of the Aquacade at the New York exposition last year, flew to Treasure Island from New York to sign a contract for an even more spectacular Aquacade during the 1940 season here and this week starts with a corps of architects and technicians on the tremendous job of transforming International hall into an Aquacade pavilion.

5. Clifford C. Fischer's Folies Bergere signed for the 1940 season of the exposition, with a new cast, new costumes and new scenery.

6. Approval by the United States Senate Foreign Affairs committee of an appropriation of \$422,000 for governmental participation in the 1940 Golden Gate International exposition.

7. Announcement that the San Joaquin Valley, Mission Trails and Redwood Empire county groups are ready to commence work on their exhibit buildings on Treasure Island and are preparing completely revised exhibits for the 1940 season.

Chemical Energy Relationships

Today chemists without having to conduct a single experiment can frequently calculate whether a certain product can be produced from new and untried raw materials, the American Chemical society reports. Energy relationships are studied to learn whether or not an untried reaction will liberate free energy. Energy has a natural definite tendency to scatter, and this tendency provides the driving force of chemical reactions.

Stockings for a Queen

Weaving is one of the oldest arts, but knitting was not discovered until about 1400. Some 200 years later, Rev. William Lee of Nottingham, England, invented a knitting machine. He knit a pair of stockings for Queen Elizabeth but she was reported as disappointed because they were coarse. Rev. Lee then perfected a new machine, and knit the queen a pair of silk stockings.

Gorillas Are Sissies

Kathryn Callan Bride of Gerrans

A wedding of particular interest to local residents was solemnized Saturday evening at Our Lady of Perpetual Help church when Kathryn Callan became the bride of Charles Gerrans. Miss Callan, gowned in white satin, wore a tulle veil crowned with orange blossoms and pearls and carried an old-fashioned bouquet of gardenias and lilies of the valley. She was given in marriage by her father, James Callan.

Miss Elizabeth Callan was her sister's maid of honor and wore a peach lace dress, blue hat and carried blue sweet peas. The bride's other attendants were Miss Dorothea Peterson and Miss Kathryn Luttringer, who wore turquoise dresses, pink hats and carried bouquets of pink sweet peas.

The bride-groom's brother, Edward Gerrans, was best man. The ushers were John Dennis and William Bellando.

Following the ceremony a reception was held at the home of the bride's parents on Shakespeare street. Mr. and Mrs. Gerrans left for the southern part of the state where they will spend their honeymoon. Upon their return they will make their home in San Francisco.

State PTA Cooperates In Public Schools Week

The California Congress of Parents and Teachers, representing nearly 250,000 members, will give full cooperation to the twenty-first annual observance of Public Schools Week, beginning April 22, according to a public statement issued in San Francisco today by Mrs. James K. Lytle, state president of the organization.

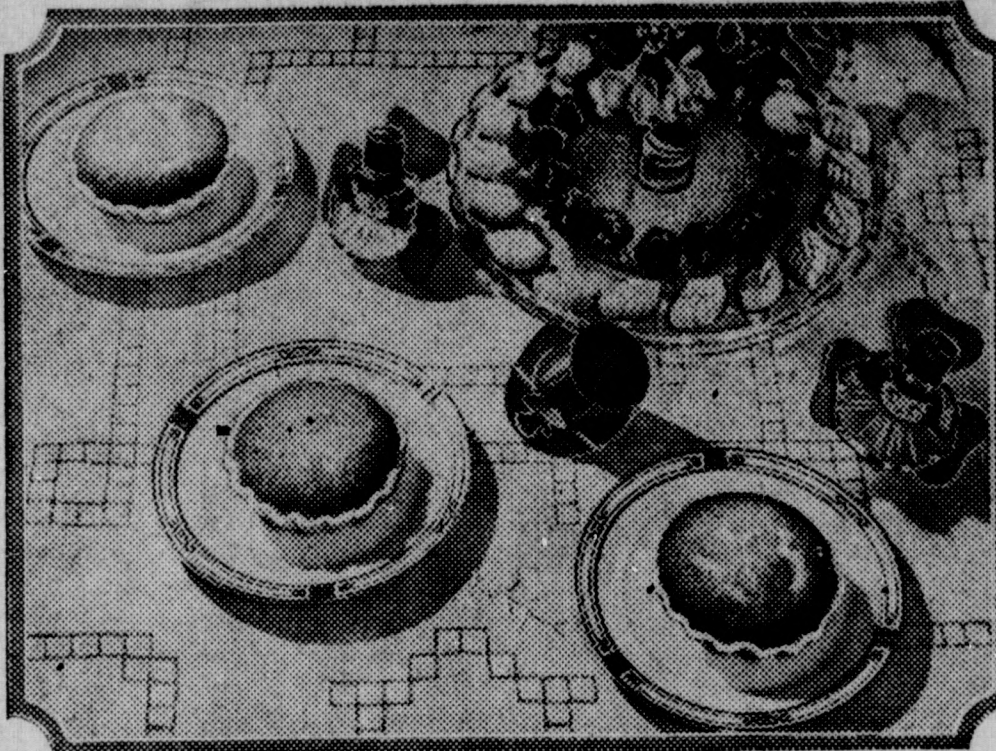

"A fundamental policy of the Congress of Parents and Teachers has always been to bring into closer relationship the home and the school," said Mrs. Lytle. "Home and school are the two great formative influences which affect the child's development. Parents need to keep in touch with educational trends, to know the schools, and what activities are going on in the schools."

Last year during the week it was estimated that more than 1,000,000 visitors over the state attended events in the public schools.

What's New in Cooking By Gertrude Dent

There Is Something New Under the Sun

ARE you one of those hostesses who just loves to spring something new on her friends, and who when she finds it, just can't wait to give a party? Then here's just the idea you've been looking for—Surprise Tarts—for a most unusual and delicious dessert.

There may be a surprise for the cook in baking, but you want it to be a pleasant surprise and not dismay at the results. If you are sure of your ingredients, if you know measurements have been accurate, and that you have blended and mixed according to directions, you put your trust in the oven; with an old-fashioned stove you hope for the best, and you may or may not be rewarded!

With a modern electric range your hope will be a certainty, for the electric thermostat and uniformly heated oven insure that luscious, golden brown which is the proper complexion of every good cake, cookie, or pie. Controlled temperature and even heat mean even rising and baking, too.

And now for the recipe for Surprise Tarts:

Surprise Tarts (Makes 1 dozen)

Line muffin pans or tart pans with pie crust. In each pan place a heaping tablespoon of jam or jelly. Fill the shells with the following cake batter:

- 1/2 cup shortening
- 1 cup sugar
- 2 eggs (separated)
- 2 cups flour
- 2 teaspoons baking powder
- 1/4 teaspoon salt
- 3/4 cup milk
- 1 teaspoon vanilla extract

Cream the shortening and add sugar gradually. Add beaten egg yolks and blend well. Sift together the flour, baking powder, and salt, and add to the creamed mixture alternately with the milk. Fold in vanilla and stiffly beaten egg whites. Bake in a moderate oven (350°) for about 30 minutes.

Surprise Tarts are a combination of pastry and cake, with a spoonful of your favorite jam or jelly hidden within. They're unusual and good, and baking in a modern electric range, thanks to the constant temperature and uniform heat, presents no problem. The pastry is crisp and flaky, cake filling tender and light, browned to a turn. Just set the electric thermostat at 365°, place the tarts on the lowest shelf in the preheated oven and bake, without watching, for about 30 minutes.

Serve Surprise Tarts with coffee or tea for after-the-bridge-game refreshments, or serve them as dessert in the following luncheon menu:

- Minted Grapefruit
- Chicken a la King
- Shoe String Potatoes
- Jellied Vegetable Salad in Shamrock Molds
- Hot Cloverleaf Rolls
- Butter Balls
- Surprise Tarts
- Coffee
- Assorted Mints

You'll want to keep the table setting for your party as original and different as the foods you serve. For a centerpiece that's unusual and lovely, use your grandmother's old-fashioned cake plate! Invert it, and use the hollow stem for flowers, the plate for assorted candies to carry out your color scheme.

Location of Thermostats

Five feet above the floor is considered a generally satisfactory height for the location of thermostats. They should be placed in locations protected from drafts and not in contact with a large volume of air. The rather bulky thermostat of yesteryear has been beautified, and their location today on the living room wall does not mar the decorative scheme.

What an Animal!

The biggest land mammal that ever lived is called a Baluchitherium. Its bones were found by the American Museum of Natural History on one of its expeditions to Mongolia. This prehistoric beast must have been able to browse on leaves more than 25 feet above the ground, according to measurements of its reconstructed skeleton.

Valuable Copper Sludge

Precious metals are recovered from the sludge of copper refineries, says Industrial and Engineering Chemistry. Cadmium is a by-product of zinc smelting. The high eighth grade of Woodrow Wilson elementary school, recently visited the San Francisco Museum of Art in the War Memorial building.

Purpose of this excursion was to correlate the subject matter of class art lessons with the varied spread of exhibitions by artists of San Francisco.

Mrs. Corral, art supervisor, and Miss Tobias, principal, supervised the excursion.

Neptune's Racecourse

Omey island, a short distance off the west coast of Ireland, is not an island at all at low tide. Then it is connected with the mainland by a bed of sand packed so hard and smooth that horse and cycle races are frequently held where the sea has rolled only a few hours before.

Style Exclusive Willys Model For California

Exclusively styled for motorists of the Golden State, the 1940 Willys "Californian" model is being presented for inspection by the motorists of Daly City at the showrooms of Mather Brothers, Willys dealer at 6041 Mission street.

Last year a special "Californian" model was exclusively styled for western motorists at the insistence of California Willys dealers, the car being produced only at the Maywood, California, plant of Willys-Overland Motors. And so quickly did the output of ultra-stylish models pass into the hands of purchasers that the western Willys plant was unprepared for the larger output the public clamored for.

Coupled with the modish new and exclusive styling, the 1940 "Californian" model offered by California Willys dealers is said to offer this year more room, more power, more eye appeal and a finer interior at a substantially lower price, and like other Willys models for 1940 is guaranteed for 100,000 miles or three years.

Western Duck Sickness

Vanez T. Wilson is one hunter who doesn't take his prizes home with him; he sets them free, reveals the American Magazine. Wilson is head of the Bear River Migratory Bird refuge at Brigham, Utah. He scours the marshes for sick ducks, and every year cures thousands of their most deadly disease—western duck sickness. The plague was brought on when irrigation projects took away too much water.

World's Largest Telescope

The total cost of the largest telescope in the world at Pasadena, Calif., will be around \$12,000,000.

Joseph W. Frazer, President, Willys-Overland Motors, Inc., announced that the club is open to membership.

"For the 1940 Willys is not only the very lowest priced full-size car on the market, it is the ONLY passenger car with a three year or 100,000 mile guarantee, a Gilmore-Yosemite Run Record of 30.05 miles per gallon; operating costs as low as one cent a mile—and lowest payments and insurance. ELECTION

(Continued from Page 1)

John J. Fahey, incumbents, campaigning for re-election. Fahey has served the city in the position of councilman for the past eight years, Cavnagaro for the past four years.

On the opposing ticket are Eugene V. Lynch and H. G. King, local residents, whose campaign has been endorsed by Mayor Paul G. Selmi, by means of public letters.

Final choice will be up to the voters next Tuesday. Elsewhere in this issue may be found statements made by some of the candidates. Following its "open-door" policy, the Daly City Record has made six inches of free newspaper space available to each candidate in this election in which to present his program and qualifications to the voters if he wishes to do so.

The Record recommends that local voters carefully study the issues involved in this campaign and go to the polls on Tuesday without fail. As a courtesy to the public, The Record will issue a special full-coverage, pre-election issue next Monday afternoon, as a reminder to local citizens to avail themselves of their great American heritage of self-government.
